ABOUT ME

Experienced and capable Chair and Director.

Key contributor to University Research / Industry collaborations.

A high level of interest and involvement of emerging technology, energy and in particular ICT.

Leading both for profit and "for purpose" organisations including a range of organisations with disparate stakeholders.

Accomplished contributor to the development of public policy and industry development.

A keen understanding of for purpose organisations and the role of the owner/trustee's expectation of the operational entity.

A significant and high level network across government, civil society and industry sectors.

The capacity to be flexible in ensuring appropriate work arrangements.

Supported by a corporate office Executive Assistant.
